

Apple Relay IT Checklist

The following checklist will ensure you can use Apple Relay from a technical standpoint.

- Desktop browsers supported:**
 - Safari 11 and higher versions
 - Chrome 64 and higher versions
 - Firefox 57 and higher versions
 - Edge. *Note that Explorer 11 is not supported due to Apple accessibility standards.*

- Desktop operating systems supported:**
 - Mac 10.11.6 and higher versions
 - Windows 7 and higher versions

- Ability to download files from a website to your computer**

- Ability to access the secure Relay website, or get Relay whitelisted**
 - Relay URL: <https://partner-relay.apple.com>

For IT-related support or questions about Relay IT requirements, please contact your Apple representative.
